Purpose of Inspection:

This was a routine inspection.

There are two mines in the area with similar names. The east project is located near the Demison Mine.

Inspection Summary:

The Operator is current on the permit fees. The bond amount is \$6,000.00 and due for renewal in November 25, 2011. The Division will send a letter notifying the Operator of the bond renewal.

There are no shafts, adits or highwalls on the site.

The site does have berms to control erosion.

Conclusions and Recommendations:

The Division should continue to monitor the site and request a bond escalation from the Operator.

Inspector's Signature

A handwritten signature in blue ink, appearing to read "Wayne Weber", is written over a horizontal line.
